Dear Customers

Because the reliability and quality of I-7000 can meet the demand of Industry applications, the sales volume of I-7000 module is growing all the time. Over hundred thousand pieces of I-7000 module has been sold since 1998, Now we are going to launch I-8000 Compact Embedded Controller, I-7188EX Embedded Internet / Ethernet Controller and expansion I/O modules.

We are proud to introduce

- Ethernet I/O solution
- VxCOM technology for I-8000, I-7188EN, I-752N
- ISaGRAF Solution
- Matlab Solution
- Strong software environment

To I-7000 customers:

Because the suggestions of global distributors and end-customers, we are going to change the color of terminal blocks to orange color from march/2002. But if you really need the green color terminal, then describe it clearly, when placing order.

To I-8000 customers:

Now we provide gray color I-8000.
You can order it as below,

I-8410	I-8410-G
I-8017	I-8017-G
