

# WinCon-8000

## Programmable Automation Controller

### Introduction

The WinCon-8000 is a leading edge embedded platform with Intel Strong ARM CPU running the Windows CE .NET operating system. When compared to the standard Windows OS, Windows CE .NET has some advantages, including hard real-time capability, small core size, fast boot speed, interrupt handling at a deeper level, achievable deterministic control and low cost. Windows CE .NET provides WinCon-8000 with the ability to run advanced application programs written in Visual Basic .NET, Visual C# .NET, Embedded Visual C++ and PC-based control software such as SCADA software, Soft PLC ...etc.

The WinCon-8000 includes a VGA port, allowing the user to choose a regular LCD monitor without the need for an expensive HMI or Industrial PC. WinCon-8000 is a cost-effective choice as a replacement for a regular PC or PLC based control system.

The operating system is resident in the flash memory of the WinCon-8000 CPU module. User programs and data can be saved in external storage areas, such as Compact Flash Cards and USB mass storage or uploaded to RAM at run time through the LAN or USB. The iPush server provides real-time transmit function and lets WinCon-8000 has the ability of sending out data itself and can send acquisitive data such as monitoring data/alarm/device status to remote devices successively through TCP/IP constructions ( Wireless LAN / VPN / Internet / GPRS ). An SDK, used to control the I-8000 and I-7000 series I/O modules is provided for easy development of user applications using Visual Basic .NET, Visual C# or Embedded Visual C++. The included WinCon Utility is a convenient tool that enables system configuration, monitoring and software updates.

# WinCon-8000

## Programmable Automation Controller

### Key Specifications & Features

- Intel Strong ARM CPU
- Windows CE .NET built-in
- Supports VGA , Ethernet, USB, Keyboard, Mouse, Compact Flash
- OPC server support
- Industrial Modbus/TCP, RTU Protocol Compliant
- Convenient utility for system configuration, monitoring and software upgrade
- Wide range of I/O modules: DI, DO, AI, AO, Counter/Frequency, Motion control...etc.
- Various access target such as Excel, mobile phone, PDA, terminals

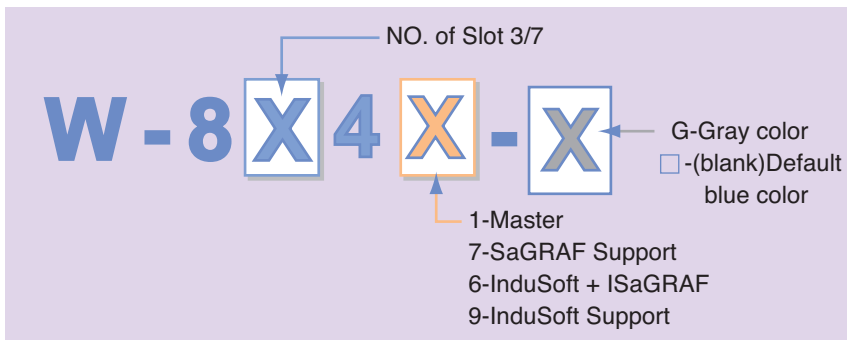

### Solution for Internet/Intranet

# WinCon-8000 **PAC**

## Main Control Unit (MCU)

The MCU is the powerhouse of the 8000. Each MCU comprises a Central Processor Module(CPM), a power supply, a three (3) or seven (7) slot backplane for either 3 or 7 Parallel or Serial I/O modules. ICP DAS invents the customized version of non-slot structure for networked integration and narrow industrial environment. The CPM is a powerful integrated processing engine comprising a CPU, RAM, ROM and Ethernet.

### WinCon-8000 Main Control Unit Selection Guide

Model	Description	CPU Speed	Embedded OS	Slot	Flash	SDRAM	Peripherals
W-8341-G	PAC	206MHz	Windows CE.NET	3	32 Mbyte	64 Mbyte	Ethernet Portx2 VGA Portx1 CF Slotx1 USBx2 RS-232x1 RS-485x1

# WinCon-8000 *InduSoft PAC*

WinCon-8000

## What is InduSoft ?

InduSoft Web Studio is a powerful, integrated collection of automation tools that includes all the building blocks required to develop modern Human Machine Interfaces (HMI), and Supervisory Control and Data Acquisition System (SCADA) applications that run natively on Windows XP, 2000, NT and CE .NET or in an Internet and Intranet environment. A simple drag and drop, point and click development environment mimics the most complex behavior of your live processes. InduSoft Web Studio is the most ideal E-Automation solution available in the industry.

InduSoft HMI/ SCADA software and automation technology can be used for:

- Monitoring: alarm monitoring, event monitoring, real time monitoring
- Control: Quality Control, Motion control, Statistical Process Control, Automation Control
- Measurement Software
- Automation: Building Automation, Process Automation, Plant Automation, Manufacturing Automation, Factory Automation Systems
- SCADA applications: SCADA Communication, SCADA Real Time System

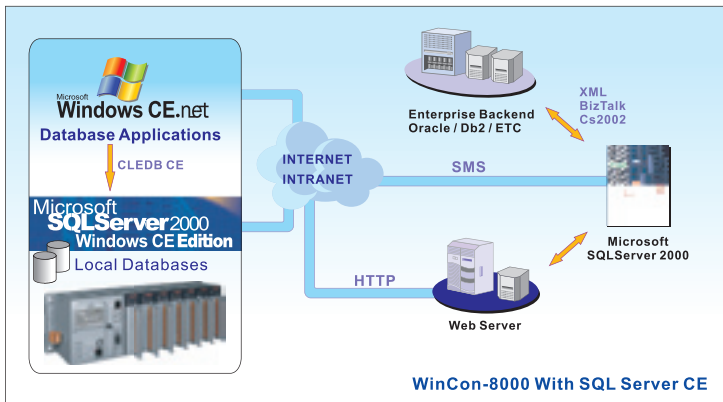

## The WinCon-8000 and InduSoft Integration Application

The WinCon-8000 InduSoft PAC provides a bundled driver to integrate the application performance and the easy to use of software and hardware. It can operate as an intelligent distributed data acquisition front end connected to a Host machine running a standard SCADA package. The user can develop SCADA applications on a PC then download and apply them to the WinCon-8000 InduSoft PAC. In addition, InduSoft Web Studio allows you to save your application screens in HTML format and export them from Wincon-8000 HTTP server for use with Internet Browsers (Internet Explorer).

## WinCon-8000 *Application Development Support*

- HATL, ActiveX Component and MFC for Windows CE
- Embedded Visual C++
- Visual Basic .NET and Visual C#
- WinCon-8000 SDK to control I-8000 I/O modules
- OPC server and Modbus/TCP Protocol
- RS-232/485 Device Connection
- HTTP server, FTP server and web-based automation/control application development
- SQL Server CE and connectivity to ERP
- WinCon-8000 system configuration utility
- Remote management utility
- Integrated SCADA/HMI S/W or User's AP via Modbus/TCP Driver, ActiveX Component or Modbus/TCP OPC Server
- Database application development
- ADOCE/OLEDBCE, ADO.NET
- Robust connectivity to ERP including HTTP, IIS, RDA, Replication

# WinCon-8X4X Dual-LAN PAC

WinCon-8000

## Specifications & Features

**Ordering Information:**  
W-8341-G: Compact PAC

**Ordering Information:**  
W-8741-G: Compact PAC

- Intel Strong ARM CPU, 206MHz
- SDRAM: 64M bytes
- Flash : 32M bytes
- EEPROM: 16K bytes
- 64-bit hardware unique serial number
- Built-in Watchdog Timer
- Real-Time Clock
- 10/100 BaseT x 2
- VGA port:  
320x240x16 to 1024x768x16  
Default is 640x480x16
- 1 x Compact Flash type II insert with ejector
- USB 1.1 x 2
- Reset button & rotate switch
- Power LEDs
- COM0: Internal use
- COM2: RS-232
- COM3: RS-485
- COM1: Serial Control for 87K Series
- I/O Expansion Slot:  
W-8341: 3 slots, W-8741: 7 slots
- Power Supply:  
20W, Unregulated +10Vdc to +30Vdc
- Operating Temp.: -25°C to +55°C
- Storage Temp.: -30°C to +85°C
- Humidity: 5~95%
- Dimensions (LxHxD)(mm):  
229 x 110 x 90(W-8341)  
354 x 110 x 90(W-8741)

### Option

- DM-64T:6.4" LCD Module
- DM-121D-AL:12.1" LCD monitor
- NS-205: 5-Port Industrial 10/100 Base-TX Ethernet Switch
- NS-208: 8-Port Industrial 10/100 Base-TX Ethernet Switch

Note: Please use NS-205 or NS-208 Industrial Ethernet Switch with Wincon-8x4x series of controllers.

## WinCon-8X4X ISaGRAF/InduSoft PAC

### Specifications & Features

**Ordering Information:**  
**ISaGRAF Dual-LAN PAC**  
 W-8347-G: 3 slot I/O Expansion  
 W-8747-G: 7 slot I/O Expansion

- The same hardware specifications of WinCon-8341/8741
- The ISaGRAF Wincon target driver & target license are included
- Two Wincon-8x47/8x46 can be set up as Redundancy system. If one is damaged, the other one still works. More information at <http://www.icpdas.com/faq/isagraf.htm> "FAQ036"

#### Option

- DM-64T:6.4" LCD Module
- DM-121D-AL:12.1" LCD monitor
- NS-205: 5-Port Industrial 10/100 Base-TX Ethernet Switch
- NS-208: 8-Port Industrial 10/100 Base-TX Ethernet Switch

#### Note:

Please use NS-205 or NS-208 Industrial Ethernet Switch with Wincon-8x4x series of controllers.

### Specifications & Features

**Ordering Information:**  
**InduSoft Dual-LAN PAC**  
 W-8349-G: 3 slot I/O Expansion  
 W-8749-G: 7 slot I/O Expansion

- The same hardware specifications of WinCon-8x41 series
- The W-8x49 has 300 tags runtime license with one driver and one web thin client.
- The W-8x49-G 1500 has 1500 tags runtime with 3 drivers and one web thin client.

#### Option

- InduSoft-NT1500D: Local Interface development version for Windows NT/2000/XP (1500Tag, 3 drivers)
- InduSoft-CE1500D: Local Interface development version for Windows CE(CE View) (1500 Tags, 3 drivers)
- InduSoft-NT300D: Launch version for Windows NT/2000/XP(300Tag,3 drivers)
- InduSoft-CE300D: Launch version for Windows CE (300 Tags, 3 drivers)
- NS-205: 5-Port Industrial 10/100 Base-TX Ethernet Switch
- NS-208: 8-Port Industrial 10/100 Base-TX Ethernet Switch

#### Note:

Please use NS-205 or NS-208 Industrial Ethernet Switch with Wincon-8x4x series of controllers.

# LinCon-8000 *Linux PAC*

LinCon-8000

## LinCon-8000 Series

The LinCon-8000 is the flagship compact embedded controller manufactured by ICP DAS. Its leading technology gives you all of the best features of both traditional PLCs and Linux capable PCs. The LinCon-8000 system is powered by Linux and brings in the Linux programming style and skill into the world of PC-based PLC. Application developers can develop their own programs directly into C or Java language by using the LinCon-8000 SDK, and then download them into the LinCon-8000 for application and use.

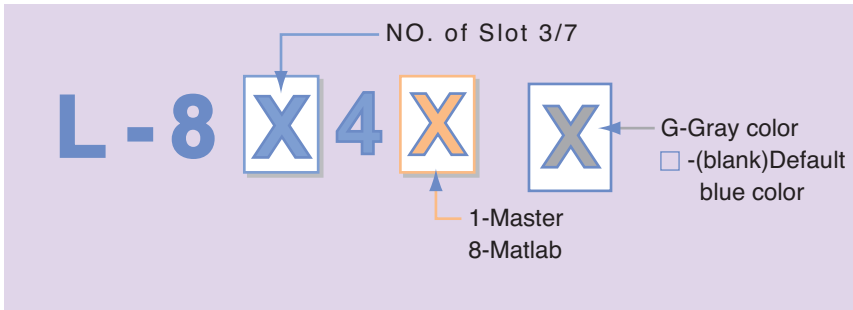

The Linux OS demands less system resources from the embedded controller and is therefore the best fit for it because of the embedded controller has some limitations in system resources. It is for this reason that the LinCon-8000 embedded controller has been published to be a new generation product from ICP DAS and the Embedded-Linux OS has been adopted into the LinCon-8000. The LinCon-8000's main purpose is to allow the numerous enthusiastic linux users to control their own embedded systems easily within the Linux Environment.

## Applications

- Factory automation
- Industrial machine control
- Maritime electronic
- Building management system
- Aircraft engines

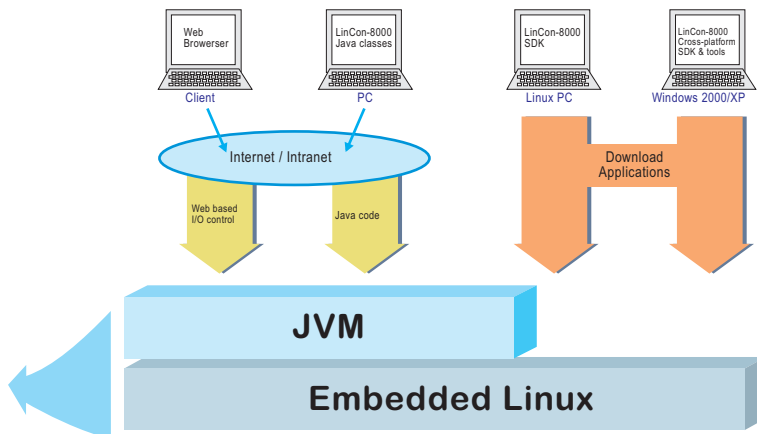

# LinCon-8000 *Linux PAC*

The LinCon-8000 model type is ruled as L-8X3X, as shown in the above figure. The Second number shows the slot numbers coming with the main controller unit. Currently, we provide three types of 3 and 7 slots. The last number demonstrates the application platform. 1 stands as the Master controller and it means that the user needs to design the application program by themselves. For more details on the product's specifications, please refer to the following product model table given below.

## Software Specifications

- OS: Embedded Linux
- SDK For Accessing ICP DAS I/O modules
- Cross Platform SDK For Microsoft desktop OS
- X-Windows based Graphical User Interface
- Java Supported
- Built-in HTTP, FTP, TELNET, SSH and SFTP Servers
- I/O Expansion slot: 3/7

# LinCon-8X4X Dual-LAN PAC

## Specifications & Features

L-8341-G

L-8741-G

### Ordering Information:

L-8341-G: 3 slot I/O Expansion

L-8741-G: 7 slot I/O Expansion

- The same hardware specifications of WinCon-8341/8741
- Embedded Linux

### Option

- DM-64T:6.4" LCD Module
- DM-121D-AL:12.1" LCD monitor
- NS-205: 5-Port Industrial 10/100 Base-TX Ethernet Switch
- NS-208: 8-Port Industrial 10/100 Base-TX Ethernet Switch

### Note:

Please use NS-205 or NS-208 Industrial Ethernet Switch with Wincon-8x4x series of controllers.

## Specifications & Features

L-8348-G

L-8748-G

### Ordering Information: Matlab PAC

L-8348-G: 3 slot I/O Expansion

L-8748-G: 7 slot I/O Expansion

- The same hardware specifications of WinCon-8341/8741
- Embedded Linux
- Built-in Matlab runtime

### Option

- DM-64T:6.4" LCD Module
- DM-121D-AL:12.1" LCD monitor
- NS-205: 5-Port Industrial 10/100 Base-TX Ethernet Switch
- NS-208: 8-Port Industrial 10/100 Base-TX Ethernet Switch

### Note:

Please use NS-205 or NS-208 Industrial Ethernet Switch with Wincon-8x4x series of controllers.

# WinPAC-8000 Programmable Automation Controller

**NEW!!**

## Introduction

WinPAC-8000 is the second generation PAC of ICP DAS. It equips a PXA270 CPU (520MHz) running a Windows CE .NET 5.0 operating system, variant connectivities (VGA, USB, Ethernet, RS-232/485) and 4/8 slots for high performance parallel I/O modules (high profile I-8K series) and serial-type I/O modules (high profile I-87K I/O modules).

Its operating system, Windows CE.NET, has many advantages, including hard real-time capability, small core size, fast boot speed, interrupt handling at a deeper level, achievable deterministic control and low cost. Using Windows CE .NET in the WinPAC-8000 gives it the ability to run PC-based Control software such as Visual Basic .NET, Visual C#, Embedded Visual C++, SCADA software, Soft PLC ...etc.

Comparing with the first generation WinCon-8000, it not only improves the CPU performance (from 206 MHz to 520 MHz) and upgrading OS (from CE 4.1 to CE 5.0), but also adds many reliability features, such as dual LAN, redundant power input, dual battery backup SRAM, etc. It gives you all of the best features of both traditional PLCs and Windows capable PCs.

# WinPAC-8000

Programmable Automation Controller

WinPAC-8000

## Key Specifications & Features

1. PXA270 CPU (520MHz) & 48MB Flash & 128MB SDRAM
2. Windows CE .Net 5.0
3. Built-in VGA Port
4. Remote Maintenance via FTP Server and VCEP Software
5. Built-In OPC Server (Quicker)
6. 64-bit Hardware Serial Number
7. Rich Software Solutions (VS.Net 2003, 2005 and eVC)
8. Upgrading applications from WinCon to WinPAC Just Copy and Play
9. I/O Module Hot Swap Ability
10. Rich I/O Expansion Ability (RS-232/485, Ethernet, FRnet, CAN)
11. Built-In Flash Disk (14MB)
12. Dual Watchdog Timer
13. Dual Battery-Backup SRAM (512KB)
14. Dual Ethernet Ports
15. Redundant Power Inputs
16. Ventilated Housing Design Allows Operation Between -25°C ~ +75°C

# WinPAC-8000 *Programmable Automation Controller*

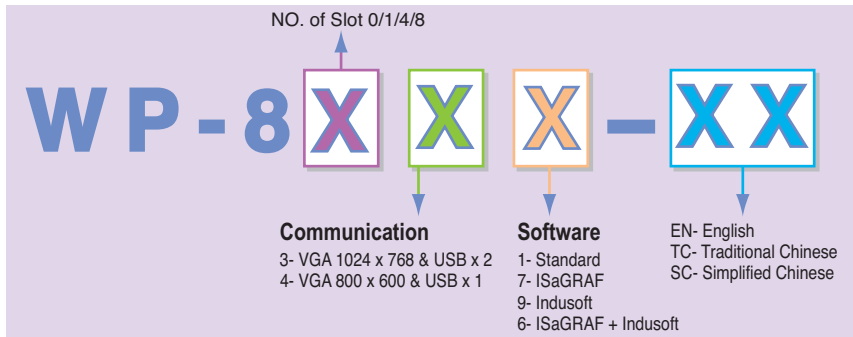

## Hardware Specifications

<b>CPU module</b>	
CPU	PXA270 or compatible (32-bit and 520MHz)
SDRAM	128MB
Dual Battery Backup SRAM	512K bytes (for 5 years data retain)
Flash	48MB (32MB for OS image, 14MB for built-in Flash disk, 2MB for registry)
EEPROM	2KB
Expansion Flash Memory	Micro SD socket with 1GB flash card
RTC (real time clock)	Year-2000 compliance; seconds, minutes, hours, date of the month; month, year, valid up from 1980 to 2079
64-bit Hardware Serial Number	Yes
Dual Watchdog Timer	Yes
Rotary Switch	Yes (0~9)
DIP Switch	Yes (8 bits); (for WP-844x and WP-884x only)
<b>Connectivity</b>	
VGA	1 (800x600 resolution)
	2
Ethernet Port	10/100Base-TX Ethernet Controller (Auto-negotiating, Auto_MDIX, LED indicator)
USB 1.1 (host)	1
COM ports	5; (COM3 and COM4 for WP-8441 and WP-8841 only) COM0=internal use for I-87K modules in slot, COM1=RS-232, COM2=RS-485, COM3=RS-232/485, COM4=RS-232
<b>Dimensions</b>	
WP-8041	64mm x 132mm x 98mm
WP-8141	95mm x 132mm x 98mm
WP-8441	230mm x 132mm x 98mm
WP-8841	354mm x 132mm x 98mm
<b>Operating Environment</b>	
Operating Temperature	-25°C to +75°C
Storage Temperature	-30°C to +85°C
Humidity	5 ~ 95%, non-condensing
<b>Power</b>	
Input Range	+10V ~ +30VDC
Isolation	1KV
Redundant Power Inputs	Yes

# KinPAC-8000 KW PAC

KinPAC-8000

## Introduction

The ICP DAS KinPAC-8000 (KP-8045/KP-8145/KP-8445/KP-8845) is a Windows CE.NET based SoftLogic PAC(Programmable Automation Controller) which bundles KW-Software solution inside. It features:

### ■ MultiProg-standard IEC-61131 programming system

The programming system is based on a modern 32 bit windows technology, providing comfortable handling including zoom, drag & drop and dockable windows. The system allows the handling of IEC configuration elements, including libraries and provides a powerful debug system. The programming system consists of a PLC independent kernel for programming in the various IEC programming languages. To do so, the textual languages ST and IL as well as the graphical languages LD, FDB and SFC are provided.

### ■ ProVisit-the machine visualization tool

Using it, visualizations are created intuitively within the graphical editor which provides a large number of standard objects and dynamizations for example Size, Position, Rotation, Color changes and different Actions.

### ■ Built-in Windows CE.net real-time multitasking system

### ■ Supports retain variables & battery backup memory

### ■ Online change function

### ■ Support Multi RS-485 ports

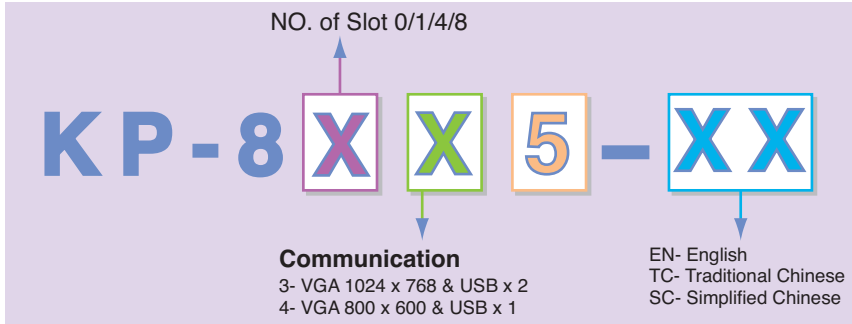

### ■ Supports Modbus TCP/IP Slave protocol

### ■ Dual Ethernet ports

## KinPAC-8000 KW PAC

### KinPAC-8000 Naming

### Selection Guide

Model	Software Pre-Installed	OS	CPU	Flash	SDRAM	VGA Resolution	USB	I/O slot
*KP-8035	KW runtime	CE 5.0	520 MHz	48MB	128 MB	1024 x 768	2	0
*KP-8135	KW runtime	CE 5.0	520 MHz	48MB	128 MB	1024 x 768	2	1
*KP-8435	KW runtime	CE 5.0	520 MHz	48MB	128 MB	1024 x 768	2	4
*KP-8835	KW runtime	CE 5.0	520 MHz	48MB	128 MB	1024 x 768	2	8
KP-8045	KW runtime	CE 5.0	520 MHz	48MB	128 MB	800 x 600	1	0
KP-8145	KW runtime	CE 5.0	520 MHz	48MB	128 MB	800 x 600	1	1
KP-8445	KW runtime	CE 5.0	520 MHz	48MB	128 MB	800 x 600	1	4
KP-8845	KW runtime	CE 5.0	520 MHz	48MB	128 MB	800 x 600	1	8

\* : KP-8x3x will be available soon.

#### Option

- NS-205: 5-Port Industrial 10/100 Base-TX Ethernet Switch
- NS-208: 8-Port Industrial 10/100 Base-TX Ethernet Switch

Note: Please use NS-205 or NS-208 Industrial Ethernet Switch with KinPAC-8000 series of controller

### Software Selection Guide

Model	Description
MultiProg 4.0	KW-software MultiProg 4.0 IEC 61131 programming system for windows 2000/XP
OPC-Server 2.0	KW-software OPC-Server 2.0 software
ProVisit 2.3	KW-software ProVisit 2.3 machine visualization
