## How to use multi-language?

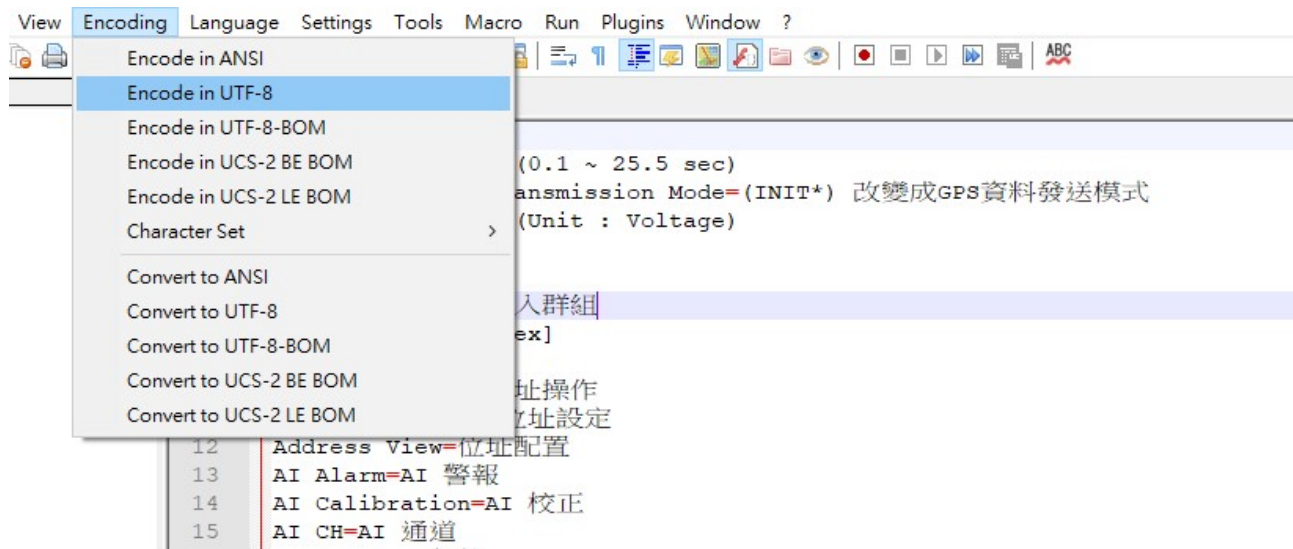

DCON Utility Pro can support multi-language, please follow steps below to add new language

Step 1: Find the "English.ini " file at the path "DCON\_Utility\_Pro\language\"

Step 2: Change "English.ini" file name to new language.ini , for example "English.ini" → "Tranditional\_Chinese.ini"

Step 3: Modify the right side data to new language, for example "AI Alarm=**AI 警報**"

Step 4: When finished, select encoding "**UTF-8**" and copy to path "DCON\_Utility\_Pro\language\"
